- Russia, Moscow

Experience

Product Designer at Yandex Delivery

Feb 2026 → present

B2B delivery projects in Go, Yango and the client dashboard

- Built the end-to-end robot delivery flow for B2B: the order form and tracking for both sender and recipient — robot delivery launched across major districts of Moscow in August 2026;
- Migrated high-frequency clients to a new offer agreement while keeping revenue from dashboard orders intact;
- Designed a delivery request management platform for sellers on a major Russian marketplace;
- Mapped out a phased plan for reworking the order form in the client dashboard.

Product Designer at OTP Bank

Aug 2024 → Feb 2026

Owned the design of insurance products across three platforms: the mobile app, the web and the admin panel

- Reworked how products are added in the bank's admin panel: the process got 30% faster, form errors halved and the load on bank employees dropped;
- Ran 20 in-depth interviews and built the research base for a combined insurance and refinancing product on them;
- Made clickable screen prototypes and mockups for an A/B test of a new insurance checkout flow;
- Built a communications system for partners: visual style, post and story templates, presentations;
- Set up how design works with business and engineering.

Product Designer at HSE University

Sep 2023 → Jun 2024

Project work as a teaching assistant

- Ran quantitative research and in-depth interviews with students — the programme's identity and website were built on them;
- Built the site's information architecture, did the design and the responsive layouts, vibecoded the site.

Education

Central University

2025 → 2027, master's

Product design

HSE University

2020 → 2025, bachelor's

IT/TP Law

Skills

- Interface design
